ProGnosiz, Alias, Kalevsan, Jacques Frost & Remedy

{Jacques Frost}
THIS IS RI
Can't stop going Got skis on my feet
Stand up for God won't stay in my seatÂ
When you feel His spirit it is so sweet
This is RI and we bring the heat
He is the rock we ain't skipping stones
Brought us to life like the valley of bones
Freed from the locker no davey jones
We don't need to search like Sherlock HolmesÂ
Got two ears so you better listen
Not everything that's gold will glisten
This is more than just being Christian
This is personal not practicing religion

{Alias}

Fly as well we eloquent
Comin in like a pelican
Destroying all the enemies plans and also developin
Comin to kill em
I'm talkin them demons
Our verse are fire
No they're not lenient
My verses improvin
Aggression in tact
And I'm writin this song
Cause I'm tryna impact
Remedy
You feelin me
Media you killin me
What you claimin is not livin free
Livin for the trinity
HS comin like a dove and above
We're tryna rep him with our mics like we sung
Grace is a ride and I pray that you all ride
We been rep Him you know this is R.I.

{Kalevsan}
Looking to making them positive hits
They calling me K-Love
Look at them hoping I'm calling it quits
Nah homie I'm Kaleb
He gave a gift I'm rapping it up
He gave me His presence
I'm lucky for nothin'
Staying so lit
Like a match on a candle
Do you even lift
Don't you see the bars
I'm praising the Son
You praising the stars
I got the drive
You staying and park
Missing the mark
Like throwing the dart
Live for the world
You walk in the dark
This is R.I. Keep your eyes on God
Go so hard keep your iPod on
I feel so wild
Where did I go wrong
It'll be alright when the light come on

(ProGnosiz)
What do you think?
Decisions we make
We make it ourselves
And never expect
That God is a myth and we came from a beast?
Oh what a coincidence

What is my mission? What is your purpose?
Statue or my God? Which is yours master?
Come and come test it
Welcome to Remedy Impact
Get ready to feel the difference

{Kalevsan}
Everyone trappin' chasing the cheese
Then when they cash it and paying the fees
Everyone lacking paper disease
I got the remedy
Haze on the tree
Gonna bring justice that plays in its sleek
Punishing judges that preys in the weak
God is the same everyday of the week
But He don't like sin, that can't change anything

{Alias}
My coordinates
In all cores is His
In of course it's
His... Of course
Got my cashmere
But no cash here
I've been changing
Like a cashier
what's a mission
(ask Emanuel)
That's a blooper
He's a man to tell
Put me on a song
I had to snap off

I said Snap snap snap snap off

{ProGnosiz}
Bet you never thought I would've been alright
But every single time that I rock rock the mic
I have given you a little bit piece of mind
But when it comes to God
He is the center of our talk
Bring the fire out, not of my own
But from above, you know who is owned
His material better than any stoneÂ
He brings the remedy into the impact zone
