

Hittin' Skittles

Hot Chip

Oh oh ohohohI'd really like to have it
But you know that we shouldn't order
Not that I'm a moral man
But you know what I I am
If I met you on the corner
Where I was once a man
Still I couldn't put it to you
But fear that you would understandIf we wern't?
Know that that's my favorit track
I live inside dirty water
I trust that you would take my hand
I know that?
And you've got nothing on back
Bad ways of tilted talking
Still the best you've ever had
There has been no dirty moment
But I feel the need for bathing
I am going to keep my clothes off
Are you gonna call me babyI'd really like to have it
But you know what we shouldn't order
Not that I'm a moral man
But you know what I I am
If I met you on the corner
Where I was once a man
Still I couldn't put it to you
But fear that you would understand
There has been no dirty moment
But I feel the need for bathing
I am going to keep my clothes off
Are you gonna call me baby
