NSA Blues

Natural Child

Don't worry about a thing
We've got your number and we've got your name
Believe us or not
We know what you're talking aboutDon't mind if we listen in
We heard where you started and we know where you live
Got a GPS that follows you walking around
Got satellites in order just to pin you downDon't mind if we watch your place
There's always a camera pointed at your faces
We've seen all your cats
We know when you're jerkin offHung over with an achin' head
I'm workin' from home, eatin breakfast in bed
Can't hear the TV, I guess I better turn it up
My coffee's cold, I guess I better fill it up
