Soar

Primal Fear

Let me live and let me breath
Even if my anger seethes
And I have learn... my lesson well
Never again, never again
I will hear them scream "amen"
No solution, all system's failedHammer is rising, march off to war
No compromising
Spread your wings and soarFull emotion, dark devotion
Here's the second law of motion
Don't be scared to fly alone
It's my fate to put it straight
The heartless monster will create
2012 and 16.6.Hammer is rising, march off to war
No compromising
Spread your wings and soarAnnihilation - radiation
A warning sign for every nation
But I'm not dead and gone
Never again, never again
Goodbye and prayer failed
Your final hour... the end is doneHammer is rising, march off to war
No compromising
Spread your wings and soarHammer is rising, march off to war
No compromising
Spread your wings and soar
