

On Top of You

Enrique Iglesias

Baby, you've been given feeling to me all night
And I cant leave unless you leaving with me tonight
Now its not difficult to tell, oh, baby you selecting
And I think you selecting me to lead you, baby cant you see I wanna live with you, gotta take you home
I can see it inside my head, oh
That if I live with you and I get you home
Baby, you're gonna love what I do
When I'm on top of you, when Im now on top of you There's no need for us to see the future tonight
I just wanna live inside this moment all night
No, Its not difficult to tell, baby, Im attractive
Thats the way you make me feel, I wanna lead you, baby cant you see I wanna live with you, gotta take you home
I can see it inside my head, oh
That if I live with you and I get you home
Baby, youre gonna love what I do
When Im on top of you, when Im now on top of you Something I cant define
But your eyes tell the story
When my love fills you up
Youll never come down, no, youll never come down I wanna live with you, gotta take you home
I can see it inside my head, oh
That if I leave with you and I get you home
Baby, youre gonna love what I do I wanna live with you, gotta take you home
I can see it inside my head, oh
That if I live with you and I get you home
Baby, youre gonna love what I do when Im on top of you
Baby, youre gonna love what I do when Im on top of you
