Dream With Me

The Cobblestone Prophets

Dream With Me - Cobblestone Prophets
[verse]
I sit her all alone, the street it is my throne
I walk and I don't run cause, I ain't got no place to be right now
And I don't know much about, what makes the world spin around and round
I don't know what to say sometimes those words they escape me
[chorus]
Because I need, someone to say to me
Is it cool if I sit with you
Can I dream with you someday
[verse]
And I don't know much about, it's money that makes the world go round
I just know my little things, all my pretty pretty little things
Like those little things you say to me
What I'm trying so hard to be tougher than I really am
Sometimes I try so hard I don't know who I am
[chorus]
Because I need, someone to say to me
Is it cool if I sit with you
Can I dream with you someday
[verse]
My suitcase is my only friend, I wish I could climb into it
You know I'd travel around the world a bit, I'd travel around the world instead
I would look for some happiness, I'd run away from some unhappiness
I'd try to find you in my arms try to find someplace that I belong
[chorus]
Because I need, someone to say to me
Is it cool if I sit with you
Can I dream with you someday, dream with you someday... someday
Someday ay hey ay... someday.
