

Next Go Round (Album Version)

Nickelback

I wanna do it 'till the sun comes up
Until we're both so good and sweaty
That we can't stand up
I wanna do it 'till we're both about to drop
As long as we're tied up together
Then we're never gonna stop I wanna go until the neighbors all complain
Because they heard somebody screamin'
And they think we're both in pain
I wanna go so long your parents think you've died
There gonna call the cops, the CIA, and then the FBI Yeah,
We're gonna love it when the lights go down
Hold on here we go
Yeah,
We're gonna go until our legs give out
Round and round we go
Yeah,
We're gonna do it hanging upside down
Up and down we go
Yeah,
We're getting ready for the next go round
Round and round we go So shut the windows, lock the doors, unplug the phone
For all intents and purposes there ain't nobody home
Then we can do it 'till the batteries are done
And borrow two from the TV remote
To turn this thing back on I wanna cover you with jello in the tub
We can roll around for hours without ever comin' up
I want you naked with your favorite heels on
Slap John Deere across my ass
And ride me up and down the lawn Yeah,
We're gonna love it when the lights go down
Hold on here we go
Yeah,
We're gonna go until our legs give out
Round and round we go
Yeah,
We're gonna do it hanging upside down
Up and down we go
Yeah,
We're getting ready for the next go round

Round and round we go Yeah,
We're gonna love it when the lights go down
Hold on here we go
Yeah,
We're gonna go until our legs give out
Round and round we go
Yeah,
We're gonna do it hanging upside down
Up and down we go
Yeah,
We're getting ready for the next go round
Round and round we go
