

Damned

Overkill

Took a little time, before we're done to love me
Took a little more than I ever did before Took your bad intentions
Took all your excite
If I didn't mention
Took my inhuman rights It's a heavy-weight title 'bout
The more I live the more I find out Damned for if I love me
Damned for if I care
Damned for all the make you feel better
As the damned scream this ain't fair Damned for if I love me
Damned for if I care
Damned for all the make you feel better
As the damned scream this ain't fair Had a little time before I went and fucked me
Had a little trouble, getting up off the floor
Had you're I'm not like that
Had a hand up in my face Head bobbing like a wet rat
No love for the human race, yeah
The more fuel, the farther I go
The more I live the more I, no, no, no Damned for if I love me
Damned for if I care
Damned for all the make you feel better
As the damned scream this ain't fair Damned for if I love me
Damned for if I care
Damned for all the make you feel better
As the damned scream this ain't fair Damned if I do and damned if I don't
Damned if I will and damned if I won't
Damned for your screamin' that this ain't fair
Goddamn your screamin' 'cause I don't care Took a little time before you tried to do me
Made a little spot for you right there on the floor So fuck your good intentions
Fuck your human rights
Fuck your finger in my face
This time I'm gonna bite Damned for if I love me
Damned for if I care
Damned for all the make you feel better
As the damned scream this ain't fair Damned for if I love me
Damned for if I care
Damned for all the make you feel better
As the damned scream this ain't fair
