I Used To Love Her

Body Count

You have the right to remain silent
Anything you say can and will be used
Against you in court and law
What do you got to say?
Yah, ain't do it, fuckI loved her with my heart and soul
Gave her everything diamonds and gold
She stabbed me in the back, fucked my friends
Partied in my house, bitch wrecked my BenzI used to love her
I used to love her
She did me wrong
Now she's goneI trusted her with cash and jewels
She laughed in my face, called me a fool
The love I gave to her was in vain
Now I think it's time I return the painI came home one night, she was in my bed
with my best friend giving him head
What really pissed me of about this shit
The bitch had never even sucked my dickI used to love her, fuck
I used to love her
She did me wrong
Now she's gone
She did me wrong
Now she's gone, fuckI used to love her
I used to love her
She did me wrong
Now she's gone
She did me wrong
Now she's gone, fuckFucking slut
