

Mon Cheri

The Georgia Satellites

Well I was out the other evening on a walk
When I decided to take myself
A little stroll through the park
I was young and I was feeling no pain

Well I was a happy man not a care in this world
A real up and comer with an eye for the girls
When I saw something that just about
Set my young heart a flame

Well I introduced myself and I said
Nice night for a walk
But I couldn't understand a thing she said
When she talked
And I said honey, let's get something straight Between you and me

Well that's when she sat herself down
On the park bench
Her skirt rolled and I could
See she was French
And my heart said toujours l'amour,
Avec mon amour

My my mon cheri
Baby I sure would be delighted in your company
Anytime that is good for you
Would be convenient with me
Well I say my my my mon cheri

My my mon cheri
Baby I sure would be delighted in your company
Anytime that is good for you
Would be convenient with me
Well my my my mon cheri

I'm still a happy man with no tale would tell
And I'm still in love with my sweet mademmoiselle
She feels such amour for her fine
Young sweet Pierre

We're in love together I hope it'll always be
My sweet darling cheri and me
Because together we generate
Such savoir faire

My my mon cheri
Baby I should would be delighted in your company
Anytime that is good for you
Would be convenient with me
My my my mon cheri

I said, I said, I said my my my mon cheri
