

# Mon Cheri

## The Georgia Satellites

Well I was out the other evening on a walk  
When I decided to take myself  
A little stroll through the park  
I was young and I was feeling no pain

Well I was a happy man not a care in this world  
A real up and comer with an eye for the girls  
When I saw something that just about  
Set my young heart a flame

Well I introduced myself and I said  
Nice night for a walk  
But I couldn't understand a thing she said  
When she talked  
And I said honey, let's get something straight Between you and me

Well that's when she sat herself down  
On the park bench  
Her skirt rolled and I could  
See she was French  
And my heart said toujours l'amour,  
Avec mon amour

My my mon cheri  
Baby I sure would be delighted in your company  
Anytime that is good for you  
Would be convenient with me  
Well I say my my my mon cheri

My my mon cheri  
Baby I sure would be delighted in your company  
Anytime that is good for you  
Would be convenient with me  
Well my my my mon cheri

I'm still a happy man with no tale would tell  
And I'm still in love with my sweet mademmoiselle  
She feels such amour for her fine  
Young sweet Pierre

We're in love together I hope it'll always be  
My sweet darling cheri and me  
Because together we generate  
Such savoir faire

My my mon cheri  
Baby I should would be delighted in your company  
Anytime that is good for you  
Would be convenient with me  
My my my mon cheri

I said, I said, I said my my my mon cheri
