

# Never Made Love

## Young Thug

[Intro: Rich Homie Quan]

Me and her had never made love 'til I fucked her

Lil' lil' mama never fell for it 'til I bust her

And you a pretty, pretty girl, no cover

Fuck you with no rubber

Since your family don't like me I'll let shots go at your brother

And your body look like gold when we fuck in Versace covers

Just because that pussy good, that don't mean that I'ma trust you

That crazy bitch stalkin' my brother Thugger[Verse 1: Young Thug]

She caught me creepin' with my old ho

She ran up like "yeah, yeah," I was like "no, no"

My lookout man was my right hand but he was wrong though

Then I seen some diamonds come off of my neighbor's porch

And it was her, she had a Louis Vuitton purse clean as detergent

She had the same exact face as my brother's nurse

And he in a hearse, I never looked at it for what it's worth[Hook: Young Thug (Rich Homie Quan)]

So I never made love, never made love

I never made love, never made love

I never made love, never made love

I never made love, never made love

I never made love, never made love

(Never made love, never ever ever ever made love)

I never made love, never made love

(I ain't ever made love)[Verse 2: Young Thug]

I never made love, never made love

When she open up, I'ma taste her

X out everyone and then erase her

I'm sorry for lyin' to your face, yeah

I'ma marry her and I bouquet her

Leavin' out the house drunk and she stumbles

Be all on her mind, she can't even think of

She walkin' off, I look at her like cable

Boolin' with your partners at a party

They don't even know what the fuck love means

She say she never waste time on me

Yeah that came out of your jaws, baby

I heard it, even though I suck it 'til she lockin' up

Lockin' up like handcuffs

Give me all your time, every day

Girl how come we never made love at your spot?  
Cause you ain't want your other rich homie be findin' out  
She want it so I spent 12 thousand on a lil' rug  
I'm just tryna tell you, ain't tryna make you look low[Hook: Young Thug (Rich Homie Quan)]  
Even though you've never made love, never made love  
(Never made love, never made love, never made love)  
She never made love, never made love  
(Never made love, aye)  
She never made love, never made love  
Never made love, never made love  
Never felt love, never felt love  
(Never made love, never made love)[Verse 3: Young Thug]  
Well I'ma change that there  
I just might wake up and buy you everything rare  
I'm not cheatin' on you no more, I don't care  
You wanna be with me, I'ma roll the dice now  
Roll it, I buy a Rollie, I'ma buy that bitch a Rollie  
That pack keep rollin', I'ma buy that bitch some more shit  
Cause I fucked her sister then I fucked on all her cousins  
Bitch I'm a Blood, you know I fucked on your bousins  
She smiling in your face, but tellin' me she love it  
She like the way my pants don't sag even though they're stuffin'  
She won't T.I. on me, she don't care 'bout no money  
Hey hey, wait, don't leave  
Majestic harmonizing  
They trip out all the time, tellin' you I'm on some bullshit  
Parallel parkin' that pussy, they like my motion  
Put that on my mama, now Stunna know that I'm loaded  
When my partner see it he stand up like he on Folger's  
I ain't like that shit so I hit him right in his shit  
Then I told him, "don't ever do that shit there again"  
How you feel if I see your ho and fuck on the kid?  
I'ma catch a body if she leave me, I'm not playin'  
Yes I said I'm the best and I put that on the red  
When you make me mad I try to get back and get some head  
And I know that's wrong but my dumb ass still did it instead  
Then I put the strap to my own head like boy I'm on one  
Then I told her don't ever do it again  
Every guy you look at, I'll turn him to wind  
Yeah, then I looked up at God like yeah[Hook: Rich Homie Quan]  
Then I realized I'd never made love, never made love  
Never made love, never made love  
Never made love, never made love  
Never made love, never made love  
She never made love, never made love

Never made love, never made love  
Never made love, never made love  
She never ever ever made love
