Swallow Me (the Real You)

Skid Row

Everything's changed
all ties are strained...to say the least
concepts deranged
It's just the way I see you
I only see the real you
You can't swallow me
i'm jagged as the pill you choke on
you can't swallow me
as long as I can see the real you
I can't be blamed
to feel this way no more
everything's changed
It's just the way I see you
I only see the real you
You can't swallow me
i'm jagged as the pill you choke on

as long as I can see the real you
you can't swallow me
the real you
the real you
I won't let you pull me down
I got my shit together now
I won't let you pull me down
I got my shit together
It's just the way I see you
I only see the real you
You can't swallow me
i'm jagged as the pill you choke on
you can't swallow me
as long as I can see
Everything's changed
all ties are strained (to say the least)
everything's changed
