

As the Earth Dies Screaming

Star Scream

This is our last day alive
By the morning nothing will survive Coz you were such a delicate girl in a scary young world
And inevitably you would be drawn to me
And you saw art as rubbish and saw rubbish as art
A smile wrapped round our hearts, we were destined to last I said you were such a delicate girl in a scary young world
And inevitably you would be drawn to me
And you saw art as rubbish and saw rubbish as art
A smile wrapped round our hearts, we were destined to last Oh my love you have a split personality
And I only love one of you, so now I see that The girl that I love is dead, theres only you here instead
Oh why can I only remember my nightmares?
The girl that I love is dead, theres only you here instead
Repress: Suppress
My life: A Mess
One final cold caress Now youre such a terrible girl in a wretched old world
And unavoidably youve been parted from me
Im a walking civil war; and weve been here before
A life with a bleeding heart from all these careless remarks Oh my love you have a split personality
And I only love one of you, so now I see that The girl that I love is dead, theres only you here instead
Oh why can I only remember my nightmares?
The girl that I love is dead, theres only you here instead
Repress: Suppress
My life: A Mess
One final cold caress You have a split personality and I only love one of you As the earth dies screaming does anyone know this pain?
So why make webs where theres no flies?
The end of my secret life Oh my love you have a split personality
And I only love one of you, so now I see that The girl that I love is dead, theres only you here instead
Oh why can I only remember my nightmares?
The girl that I love is dead, theres only you here instead
Repress: Suppress
My life: A Mess
One final cold caress
