

Lady Shave

Fad Gadget

Worried girl
Shaves her legs
Creams her arms
And she creams her chest Worried girl
Shave it
Shave it, shave it, shave it Plug your brow
Plug it now
Until it's sore
Drop the blood on the floor Oh, worried girl
Shave it
Shave it, shave it, shave it Shower scenes
A giggling tease
And stupid magazines
Spread a social disease Oh, worried girl Lady shave
Dont misuse that blade
Lady shave
Don't slip that blade Oh, worried girl
You don't have to shave it
Shave it, shave it, shave it
Shave it, shave it, shave it Lady shave
Oh, lady shave
Lady shave
Oh, lady shave
Lady shave
Oh, lady shave Shave it, shave it, shave it
Shave it, shave it, shave it
Shave it, shave it, shave it
...
