

# Forever Stay

## Darkseed

the hours are slipping by  
i stare into the night  
into my deep blue sea  
of unforgotten memory  
i paint your face  
into my mind  
and kiss your tears away  
for me there's only you i want you here, forever stay  
my heart torn in two  
i'll hold you close to ease your pain  
'cause i feel it too we are two souls in moonlit autumn nights  
rebellious hearts on wings of gentle smiles  
peaceful earth and star-filled skies  
no demon, devil, ghost will make us cry i want you here, forever stay  
my heart torn in two  
i'll hold you close to ease your pain  
'cause i feel it too  
forever stay and save the day  
forever stay
