

# They Say Vision (DJ Encore Remix)

## Res

I wanna try that pill that people take  
Make you believe all the things that people say  
Sick of shuckin' 'round with a screwed up face  
With my heels dug in, trying to leave a traceNow come on, put me down somehow  
How you lose your faithJust take my hand and lead me where you wanna  
Pay no more mind to what you think you've seen  
It's as they do only, say, what they say'Cause, there's only one way, they say, vision  
It takes you back to just where you want  
Like when you ain't know no wayPay no more mind to what you think you've seen  
It's as they do only, say, what they say  
'Cause, there's only one way, they say, vision  
It takes you back to just where you want  
Like when you ain't know no wayIndustry's down, think I've died and I've flown away, yeah  
So, so, long to them thieves  
Who came and took all the things to sayI play the joker sometimes  
But then those moments slide back my way  
'Cause, for real, I'd give my soul away, give it all awaySo, take my hand and lead me where you wanna  
Pay no more mind to what you think you've seen  
It's as they do only, say, what they say'Cause, there's only one way, they say, vision  
It takes you back to just where you want  
Like when you ain't know no wayPay no more mind to what you think you've seen  
It's as they do only, say, what they say  
'Cause, there's only one way, they say, vision  
It takes you back to just where you want  
Like when you ain't know no wayI know where they all go find someplace  
Where they don't mind loafing about the waste  
They say, vision takes you back to where no conscience  
Free from how you really see  
And if you think that you know, take the back roadI wanna try that pill that people take  
I wanna try that pill that people take  
I wanna try that pill that people takeMake you believe all the things that people say  
Sick of shuckin' 'round with a screwed up face  
With my heels dug in, trying to leave a traceNow come on, put me down somehow  
How you lose your faithPay no more mind to what you think you've seen  
It's as they do only, say, what they say  
'Cause, there's only one way, they say, vision  
It takes you back to just where you want  
Like when you ain't know no wayPay no more mind to what you think you've seen  
It's as they do only, say, what they say

'Cause, there's only one way, they say, vision  
It takes you back to just where you want  
Like when you ain't know no wayPay no more mind to what you think you've seen  
It's as they do only, say, what they say  
'Cause, there's only one way
