

The Legacy

Wu-tang Clan

The Legacy

(Get your minds ready, get your rhymes ready)
And held a breath of life, resurrect the death of Christ
What you got to sacrifice, I'm on some other shit
Takeover the mother ship, brothers get to claim the covenant
Universal loving it, olive oil you rubbing it
Check the thermometer, every kilometer rise by heat pressure
Your thermostat couldn't measure
Royal Familia, atom bombs from Asquilia
Dark Ages, so read the page, Mike and Alenki
Born on the cross between love and lust
Genesis through excuse, larzurus, slash black barnibus
The holy temple be the mental, you and see Islamic
Can you understand the clear picture
Brave heart, verbal courage, battle the seminar
Royal Fam Legacy, watch us travel far
Positive energy, always corrects errors, Royal Fam rule shit
Now and forever, what
Oratorical, niggaz is metaphorical
My editorial breaks down your monuments historical
Geologist studying land, using the earth's crust
Measurements, eight elements, atomic weight plus density
Hi Techs, science, crustal gravity
Revolve around my oro, I'm the soul that keeps spinning, what
Supernova, black quasar, my mental radar picks up
Frequencies beyond the earth's equator
Forever glow, electro, magnetic force field
Thoughts build, we bomb for real, Royal Fam still exists
Golden fist, your caught up in the devil's mist
Fire war, royal sire laws, reveal this
Protons, electrons, atoms cause explosions
My center of attraction, I'm the nucleus, you're frozen
My square be complete, architectural, visual
The sound spectrum strikes the mental then the physical
My perimeter damns your diameter
Bar codes are scanned from America to Canada
What, from America to Canada
Get your mind ready
Brave heart, verbal courage, battle the seminar

Royal Fam Legacy, watch us travel far
Positive energy, always corrects errors, Royal Fam rule shit
Now and forever, what
Get your minds ready, Royal Fam Legacy
(Get your minds ready)
What, get your minds ready, get your rhymes ready
