You Changed My Life

The Thermals

You changed my life
You proved me wrong
You taught me everything I thought I knew all alongYou changed my life
You set me free
From everything I never really wanted to beYou changed my life
You built me up
You pulled me to the world that I was dreaming ofYou changed my life
You made me see
How everything I ever knew was gone
But still I held on
I was holding on
Was all I could do
Now when I'm cold
Now when I hold
I hold onto youYou changed my life
You proved me right
Provided every sky
Every day
Every lightYou changed my life
You own my heart
You wore it to shreds
You tore it apartAnd it's so hard
To be alone
After the heat I felt
After the love I've knownYou changed my life
You made me see
How everything I ever knew was gone
But still I hold onYeah I'm holding on
It's all I can do
Now when I'm cold
Now when I hold
I hold onto you
