Mr Polite

The Jungle Giants

Coming around
I'm gonna take you to town
I've got your name on my collar
I'm wearing you aboutCan I take you out to see the sea
Can I hear another story please
Are you led to the assumption that your company is something that I needHey,
I'll only stay if you stay
I'll only go if you go
What are we doing anywayNo,
No I don't even know these people
But I don't mind a little unfamiliarity while I politely let goPlease stop from packing your bags
or am I moving too fast
I know we're living in the city
We hear it won't lastThere's a little place near here
I like to to go and see the sky is clear
Well you can come with me and tell me that I am the only one you don't fearHey,
I'll only stay if you stay
I'll only go if you go
What are we doing anywayNo,
No I don't even know these people
But I don't mind a little unfamiliarity while I politely let goWhy are you waiting
What are you expecting to see
Why are you waiting
What are you expecting to seeHey,
I'll only stay if you stay
I'll only go if you go
What are we doing anywayNo,
No I don't even know these people
But I don't mind a little unfamiliarity while I politely let go
While I politely let go
