Shoulda Known Betta

Case

Been around the world, ladies come and go
Still I told myself that you weren't one of those
That's what I get for being polite
I'm not upset or headed goodbye
Tried to love you, tried to please you
Never made a difference I see
(Shoulda known better)
I feel so dumb, made you the one
Never made a difference I see
(Shoulda known better)
Such a perfect love or so I thought it was
But you were loving you, girl, instead of loving us
That's what I get for being polite
I'm not upset
Girl, I can't believe how much I really loved you
And you really don't believe how much I care
So I guess I made a fool out of myself
But believe me, it won't happen again
Tried to love you, tried to please you
Never made a difference I see
(Shoulda known better)
I feel so dumb, made you the one
Never made a difference I see
(Shoulda known better)
Tried to love you, tried to please you
Never made a difference I see
(Shoulda known better)
I feel so dumb, made you the one
Never made a difference I see
(Shoulda known better)
Girl, I can't believe how much I loved you
And you really don't believe how much I care
So I guess I made a fool out of myself
But believe me, it won't happen again
(Shoulda known better)
Tried to love you, tried to please you
Never made a difference I see
(Shoulda known better)
I feel so dumb, made you the one

Never made a difference I see
(Shoulda known better)
Tried to love you, tried to please you
Never made a difference I see
(Shoulda known better)
I feel so dumb, made you the one
Never made a difference I see
(Shoulda known better)
Shoulda known better, shoulda known better
Shoulda known better
