Negative Space

Senses Fail

I don't have what you need
You don't know but I still see
The situation brings me downSee wasted days inside me
No changing ways becoming
Falling away from nothing
Sobering days, I'm dying nowI don't care what you want
You don't know I'm already gone
The situation brings me downSee wasted days inside me
No changing ways becoming
Falling away from nothing
Sobering days, I'm dying nowWhat I feel everyday
Keeps everything nice and cold
I'm not sure what you needIt's not me anymore
All of our memories are just a thought away
Get the fuck away from meSee wasted days inside me
No changing ways becoming
Falling away from nothing
Sobering days I'm dying nowSee wasted days inside me
No changing ways becoming
Falling away from nothing
Sobering days I'm dying now
