

You Spoke to Me

Smoking Popes

I was at the lowest point of my life
I couldn't talk to anyone
Truly alone There's no telling what
I might have done
If it hadn't been for you
You pulled me through I don't know if you actually saved my life
But you changed it that's for sure, yeah
You spoke to me, yeah
You spoke to me, yeah I drove all the way
From Carpenters ville
To see you here tonight
And it was worth it You didn't play my favorite song
But that's all right
I love the new stuff too
I'm just glad I got to see you I don't know if you actually saved my life
But you changed it that's for sure, yeah
You spoke to me, yeah
You spoke to me, yeah I don't know if you actually saved my life
But you changed it that's for sure, yeah
You spoke to me, yeah
You spoke to me, yeah
