

Fade Away (feat. Tallyn)

FURY

I'm going numb
Myself and your affections
I'm going numb
Losing our perfections
Don't take it lightly
We could die in the moment
Lost in slow-motion
We could die in the moment We won't get away this time
No, we wasted all our brighter days
So close your eyes
The storm is coming one last time
Our hope is washed away
Now I'm left to stand and watch us fade
Faded away
I watch us fade
And watch us fade We won't get away this time
No, we wasted all our brighter days
So close your eyes
The storm is coming one last time
My hope is washed away
Now I'm left to stand and watch us fade
Fade away
I watch us fade
I watch us fade
