# Scream

## Soulwax

Like she was scream I try to hear
What's in my dreams I gotta fear
I cannot breathe, please, hold me tight
I try to feel, don't talk so fastThis radioactive, she
What she does to me?
Caught her inside, cuts like a knife
She's like a scream to meI'm not afraid, I cannot help
There's no disguise, no alibis
What do I think? I cannot say
Something about me like she was hereThis radioactive she
What she does to me?
Caught her inside, cuts like a knife
She's like a scream to me
