

Mexican Wrestler

Emma Roberts

Sometimes I wish that I was an angel
A fallen angel who visits your dreams
And in those dreams I'd blow you a message
That says, you really want me
Sometimes I wish that I was a wrestler
A Mexican wrestler in a red vinyl mask
And I might grab you and body slam you
And maybe cause physical harm
But when we would land
I might take pity on you
I can crack all your ribs
But I can't break your heart
You will never love me
And that's I can't forgive
That you will never love me
As long as I will live
Sometimes I wish that I was a beauty
A beautiful girl, the popular one
And I'd turn your head and your friends would love me
And I could afford to play hard to get
We'd go to parties
And you'd show me off
Then I'd go out
With your best friend
You will never love me
And this I can't forgive
And it will always bug me
As long as I will live
You will never love me
Why should I even care
It's not that you're so special
You're just the cross I bear
(You will never love me)
You will never love me
(And this I can't forgive)
And this I can't forgive
(You will never love me)
And it will always bug me
(And this I can't forgive)

As long as I will live
(You will never love me)
You will never love me
And this I can't forgive
And it will always bug me
As long as I will live
