CSS

Oh my God, it's so hot
Oh my God, it's so gold
Oh my God, I'm so messed up
I don't know which way to go Stars above try to guess
Where's my gin, where's my glass?
All this mess comes from your ass
Fuck with us, we're CSS We didn't come into the world to walk around
We came here to take you out
Come with us, we'll make a toast
For this time about to come Don't mess my holiday
Don't mess my holiday
Don't mess my holiday
Don't mess my holiday Oh my God, it's so low
Oh my God, it's so high
Ab-Fab, Claudia Ohana
Dry Martini crossed my eyes Ask the stars what they say
Desperate living, hairspray
Baltimore with Tanqueray
Live your life John Waters' way We didn't come into the world to walk around
We came here to take you out
Come with us, we'll make a toast
For this time about to come Don't mess my holiday
Don't mess my holiday
Don't mess my holiday
Don't mess my holiday Don't mess my holiday
Don't mess my holiday
Don't mess my holiday
Don't mess my holiday Patsies and Edinas
High on Vitaminas
Monday at the club
Drinking from the tub The day starts weekend style
There's a piece of dirt in your smile
Hold your body on your legs
Your mouth is stuck to a thousand fags We didn't come into the world to walk around
We came here to take you out
Come with us, we'll make a toast
For this time about to come We didn't come into the world to walk around
We came here to take you out
Come with us, we'll make a toast

For this time about to come
Don't you mess my holiday
(Don't mess my holiday)
Don't you mess my holiday
(Don't mess my holiday)
Don't you mess my holiday
(Don't mess my holiday)
Don't you mess my holiday
(Don't mess my holiday)
Don't you mess my holiday
(Don't mess my holiday)
Don't you mess my holiday
(Don't mess my holiday)
Don't you mess my holiday
(Don't mess my holiday)
