

# Mystical One

George Harrison

They say, I'm not what I used to be  
All the same, I'm happier than a willow tree  
Shine or rain, sitting here by a stream  
There's nothing I'd rather feel in this world  
You and your sweet serenity  
Rocking me, melting my heart away  
I know something so dear to me  
Beyond words, beautiful feeling in my soul  
Sounds I've heard like humming birds in a dream  
That mystical one I knew is returned  
Lulling me with those raincloud eyes  
Taking me, melting my heart away  
I am, yes, I am  
I know what I feel  
You came in my life  
Made me more real  
I know whatever we may have been in past times  
Has sorted the true out from the rest  
Win or loose, I always knew you'd be there  
You answer my deepest prayer  
In a song, shimmering slow hand flowing clear  
Moving me, melting my heart away  
I am, yes, I am  
I know what I feel  
You came in my life  
Made me more real  
That mystical one I knew is returned  
Lulling me with those raincloud eyes  
Taking me, melting my heart away  
Taking me, melting my heart away
