Villain

Like Vultures

Jennifer....JLO..
Oh no...Oh no..I know...
I mean I love you baby
Now somehow you feel left out
Somehow you're feeling down
Got an inch but took a mile
Oh nooooooooo
Right now your body's in need
Can't replace what you had in me
My words are cutting deep
Oh nooooooooo
Watch me fall now
I'm colder than winter
My love you forgot,
Let me help you remember
I loved you like you never been
So overdosed on your own medicine
CHORUS
There's no need to call me on the phone
Telling me how much your alone
Enemy of my state of mind
Now I'm the villain how come I'm the villain
I told you that you would need my love

I give you my all but that wasn't enough
Enemy of my state of mind
Now I'm the villain, I'm the villain...of your love
Lalalalalalalalala (x3)
Baby, I'm the villain, Baby, I'm the villain...of your love
Oh now you get the picture
Oh oh now you wanna fix her
Oh now your screaming let's go back
I ain't having that
But now my love ain't around
It's behind walls that won't come down
But now you wanna show up and turn my sour sweet
You gon' miss me
Watch me fall now
I'm colder than winter

My love you forgot,
Let me help you remember
I loved you like you never been
So overdosed on your own medicine
CHORUS (x2)
Lalalalalalalalala (x3)
Baby, I'm the villain, Baby, I'm the villain...
