

# Let It Be Me

[Ray LaMontagne](#)

There comes a time  
A time in everyone's life  
Where nothing seems to go your way  
Where nothing seems to turn out right  
There may come a time  
You just can't seem to find your place  
For every door you open  
It feels like two get slammed in your face  
That's when you need someone  
Someone that you can call  
And when all your faith is gone  
It feels like you can't go on  
Let it be me  
Let it be me  
If it's a friend that you need  
Let it be me  
Let it be me  
Feels like your always coming up last  
Pockets full of nothing you a'int got no cash  
No matter where you turn, you ain't got no place to stand  
Reach out for something and they slap your hand  
Now I remember all too well  
Just how it feels to be all alone  
To feel like you'd give anything  
For just a little place you can call your own  
That's when you need someone  
Someone that you can call  
When all your faith is gone  
It feels like you can't go on  
Let it be me  
Let it be me  
If it's a friend that you need  
Let it be me  
Let it be me  
Let it be me  
Let it be me  
If it's a friend that you need  
Let it be me  
Let it be me  
Let it be me
