

Hurricane

2AM Club

They say it's something like a tsunami, I'm in Miami
I'm spinning like the street signs when the storm smashing
See you comin' down the street, lookin' all happy
Wind pushin' at your clothes, lookin' all classy Like Marilyn in the picture, I stare into your eyes
I dare you to leave, yes, but pay you to fly
I barley can breath, yes, you're there in disguise
But I can see you in the sky Come on, get with me when I'm down
I only love you for the price you pay
Life is a circle, I'm afraid to say
We're spinning something like a hurricane, a hurricane So listen to me come
I only love you for the time you save
Life is a circle, I'm afraid to say
We're spinning something like a hurricane, a hurricane They say you're something when I see you're my lady
Katrina
I love her to leave her but my baby's a leader
Mercedes two-seater, wish you could ride with me
And you don't know about the crazy you would drive with me And you come lip stick smeared, drippin' face
Clothes hugging your hips, I'm hugging your waist
I'm lovin' the taste, rain-puddles and grey
I only love you for the pay Come on, get with me when I'm down
I only love you for the price you pay
Life is a circle, I'm afraid to say
We're spinning something like a hurricane, a hurricane So listen to me come
I only love you for the time you save
Life is a circle, I'm afraid to say
We're spinning something like a hurricane, a hurricane If you could just tame my
You can go on and on, yeah
And you can just tame my
And we can go on and on forever, yeah Come on, get with me when I'm down
I only love you for the price you pay
Life is a circle, I'm afraid to say
We're spinning something like a hurricane, a hurricane So listen to me come
I only love you for the time you save
Life is a circle, I'm afraid to say
We're spinning something like a hurricane, a hurricane So meet me when I'm down
I hope you're late for the time
That you were always on my mind
You're spinning something like a hurricane, a hurricane So listen to me come
I only love you for the pay

And it'll go on past the day
I'm spinning something like a hurricane, a hurricane, a hurricane
