

Out the Door (Instrumental)

Stick Figure

give me one good reason to love you

give me one good reason to tell you

I'm in love no more

I'm walking out that door.

give me one good reason to love you

give me one good reason to tell you

I'm in love no more

I'm walking out that door

I could have saw it coming from far and away

now you've got me running, running away

walk out the door, cause I don't need your love

I don't mind the feeling of sleeping alone

I'm better off being, being on my own

walk out the door, cause I don't need your love

{ }

got a pistol in my pocket, and a bottle of booze

the time has come, fuck it got nothing to lose

walk out the door, cause I don't need your love

it's the same damn feeling, I've been here too long

the truth is so revealing, I knew it all along

walk out the door, cause I don't need your love
