

# Pro's and Con's of Self-Liberation

## Hydra Melody

You say you're looking for a big shot  
Well it's never gonna to come your way  
Young man  
Everybody's got a dream sometime  
And this is mine so don't mind, yeah

I'm convinced  
That I don't dream when I am sleeping  
My days are filled with thoughts and  
Dreaming, so come the evening there's  
Nothing left

Am I cut out for this  
Was I intended for something else ohhhh  
Am I what I make myself  
Take my books and put them on the shelf

I can't tell you how much better things  
Could be the other way, go your own way  
No one said it was gonna to be easy  
Go your own way  
No one said it was gonna to be easy

Don't ever let them tell you  
You'll be better off its gonna weigh you down  
The paths that you take  
Should be decided for yourself  
Don't be afraid, boy  
I can feel you shaking

Don't be scared  
To lose it all before your made unhh  
Go your own way  
No one said it was gonna to be easy  
Go your own way  
No one said it was gonna to be easy

Go your own way  
No one said it was gonna to be easy  
Go your own way

No one said it was gonna to be easy

You were fine but your mind was not  
At ease

You were fine but your mind was not  
At ease

I can't tell you  
How much better things  
Could be the other way
