

# Depth of Field

## Snapcase

Well, the field is wide open  
With endless new lands  
And infinite landscapes

For us to create, now Yeah, I want to live in another light

Yeah, I want to live

Here the walls keep closing

As we suffocate, but a door just opened, wide Yeah, I want to live in another light

Yeah, I want to live

Ohh, we cannot let us die

We must prepare, prepare For the time to rise and then

We'll face the truth

Ohh, we cannot let us die

We must prepare, prepare For the time to rise and then

We'll face ourselves

We'll face, we'll face, we'll face ourselves

We'll face, we'll face, we'll face ourselves Ohh, yeah, I want to live in another light

Yeah, I want to live

We'll face, we'll face, we'll face ourselves

We'll face, we'll face, we'll face ourselves
