

Top of the Ridge

Blue Highway

All the fields are changin', never seen um like this.

The suns going over the top of the ridge.

Ain't no need to running.

I've done crossed that bridge.

There's a better way of going to the top of the ridge. And a peaceful wind is blowin', and the pain I had is gone.

Ain't no need to worry, 'bout the things I've missed,

I see a whole lot better from the top of the ridge. We're all a laughing, runnin' round like kids.

Having us some good times, on the top of the ridge. And the peaceful wind is blowing, and the pain we had is gone.

All the fields are changin',

The suns going over the top of the ridge.
