We Don't Need The Army

Slime

Advisory - the following lyrics contain explicit language:

Millions of people dying in war, they just don't know why
Soldiers fighting for god and country, war does make them high
Nobody can do anything, 'cause nobody understands
Troops are marching for a crazy leader, for the rules of their land
If you're not a fool, a victim of insanity
I'll tell you something, just listen to me
We don't need the army - no, no, no
We don't want a war - no, no, no
Destroy your government, fight their fucking war!!!
Government saying we need defense, but it's nothing less than war
Nowhere's peace in this dirty world, they're fighting more and more
War for money, war for fame, never seen a bigger crime
Fighting for a crazy leader, but I don't wanna die
If you're not a fool, a victim of insanity
I'll tell you something, just listen to me
We don't need the army - no, no, no
We don't want a war - no, no, no
Destroy your government, fight their fucking war!!!
