

I Do

Weezer

All the times you came
I should've ran away You told me that you'd always love me
You told me that you'd always love me And the games you played
Were meant to lead me on You told me that you'd always love me
You told me that you'd always love me
Always, oooh always
I do You told me that you'd always love me
You told me that you'd always love me
Always, oooh always
I do Never more again
Will I believe the sun
