# True Love

## One Voice

Never wanna fall in love again
Don't ever wanna feel the pain again
Don't wanna see another love turn into a lie
Don't wanna see another tear fall from my eye
I know my heart wasn't meant to be let down
It's juss not made for pain
You never really know til it's much too late
It's juss enuff to drive you insane~!*Chorus*!~:
True love is not always the best thing
Not when your heart's at stake and the love you make gets thrown away
True love can start out right but then it falls apart
True love...
It always break your heartNever knew that love could be so cruel
To make even the kindest hearts play the fool
At first it makes you feel real good
It makes you feel fine
But it can really turn on you at the best and worst time
I never knew that love could hurt so much
Thought it would always be mine
I didn't know until it was much too late
And now I'm going out of my mind~!*Chorus*!~Why did you have to be this way
Why did you have to go
Feels like my heart has been betray
Should of been the best thing that has happened to me
You should of been the best thing
But you play me like a fool
Why you have to be so cruel
Never wanna believe in you~!*Chorus*!~~!*Chorus til fade*!~
