

# Searchlights

## Falling Up

Its like a breath before the dive  
Its like the truth after a lie  
This flight is taking over  
Searchlights in every corner Like I love you when youre gone  
Escaping in the dawn  
I swear well flood your city  
No choice its what youre getting If you want to breathe will you just, let me know  
If you want it then youll see it, let me know  
Wash away the tears will you just, let me know  
Need to see it then youll want it, let me know The secrets in the wind  
The rumors now begin  
You want to hear the silence  
You want the quiet sirens His blood is like the break  
The love you will not take  
I swear well flood your city  
No choice its what youre getting If you want to breathe will you just, let me know  
If you want it then youll see it, let me know  
Wash away the tears will you just, let me know  
Need to see it then youll want it, let me know No one can breathe, no one can see  
They are asleep, they will be seen Breakaway the voice is calling  
Wake up youre asleep and falling  
Not to late to open up your heart He will heal the shattered hopes  
And fly away the broken souls  
Its not too late to find out who you are If you want to breathe will you just, let me know  
If you want it then youll see it, let me know  
Wash away the tears will you just, let me know  
Need to see it then youll want it, let me know
