Until You're Mine

Subvision

Don't stop looking at me
Cuz I like what I see
Staring with eyes
Through the dark as disguise
At me

You are beautyfully lean
Like someone on the screen
Baring your fruit in a leathery suit
Quite a scene

My long lost concubine
But you're not mine

So, what do you say?
Are you going my way?
Into the night
Goes the starspangled flight
Away from today

The right I won't find
Unless you're mine

With lights gone down
Let's fan the flames and scorch the sky
As once sung in a lullaby

I won't rest my mind
Until you're mine
Until you're mine
