

# Until You're Mine

## Subvision

Don't stop looking at me  
Cuz I like what I see  
Staring with eyes  
Through the dark as disguise  
At me

You are beautifully lean  
Like someone on the screen  
Baring your fruit in a leathery suit  
Quite a scene

My long lost concubine  
But you're not mine

So, what do you say?  
Are you going my way?  
Into the night  
Goes the starspangled flight  
Away from today

The right I won't find  
Unless you're mine

With lights gone down  
Let's fan the flames and scorch the sky  
As once sung in a lullaby

I won't rest my mind  
Until you're mine  
Until you're mine
