

Superhuman

Aura Dione

She's got those dragon-blue eyes that make you forget who you are

Some kind of super powers

She was born to take it far

She's a magical girl

All she wants is to save the world

But first she has to save herself

Cuz' she thinks she's like everyone else

She's a superhuman, she's a superhuman.

She's a superhuman, she's a superhuman.

Live out a miracle

Live out a fantasy

Discover a mystery

Make life a history

Feed your curiosity

Jump on an airplane

Be your own hurricane

Live on a miracle, live on a miracle

Live on a miracle, live on a miracle

Everywhere she walks

People start to talk

She's always shining on them

But they think it's the sun

She's a superhuman, she's a superhuman.

She's a superhuman, she's a superhuman.

Live out a miracle

Live out a fantasy

Discover a mystery

Make life a history

Feed your curiosity

Jump on an airplane

Be your own hurricane

Live on a miracle, live on a miracle

Live on a miracle, live on a miracle

I think that we, we, we should try to be

The best that we, we, we can possibly be

I think that we, we, we should try to be

Oh, that's the key, key, key for you and me

Be a superhuman, be a superhuman

Be a supehuman, be a supehuman
Be a supehuman, be a supehuman
Be a supehuman, be a supehuman
