

While Listening to Rock & Roll...

The Maine

Turn it up, it's my song
I can't sing but I, sing along
I can feel it in my bones
A little rock, a little roll
Take it fast, take it slow
Let me tell you something
That you don't know
Well the bars are all closed
And we got no place to go
But we're all a little drunk and
We wanna hear some rock and roll
Is anybody listenin', no
Where did that old feeling go?
Don't stop listening to rock and roll
Another round to the sound of that mojo music
Muddy Waters said we got it
So we might all well use it
I asked Katie to dance and I almost blew it
I only kissed her on the mouth
Cause he told me to do it
Is anybody listenin', no
Where did that old feeling go?
Don't stop listening to rock and roll
Is anybody listenin', no
Where did that old feeling go?
Don't stop listening to rock and roll
