

# Doomsday

## Monster Magnet

Sleep and sleep again  
Might as well stay in  
Another happy day  
A few remember, well What can I do with you  
Your layers and your doors?  
Pathetic little hypocrite  
You're callin' me a whore Every drop of red  
Just turns all gold to rust  
All you do is take away  
The only thing I love They don't have to dig for motives  
You're just too easy to read  
A little longer, a little wider  
So all the dirt can't get in It's doomsday, it's doomsday  
It's closing around my head  
It's forcing too much down my throat  
It's tucking me in bed And all your hopes and dreams  
Mean nothing to me now  
It's absolute apocalypse  
You stupid fucking cow And as you drop the fire  
And as you burn the hive  
I'm standing on ground zero  
Baby, holler but a lie I knew you'd chicken baby  
You're just too easy to read  
Go on and cut the vessel  
There's nothing left in me to bleed It's doomsday, it's doomsday  
It's doomsday, it's doomsday  
It's doomsday, it's doomsday
