Life Begins at 40

John Lennon

They say life begins at 40
Age is just a state of mind
If all that's true
You know that Ive been dead for 39And if life begins at 40
Well, I hope it ain't the same
It's been tough enough without that stuff
I don't wanna to be born againWell, I tried to sweep the slate clean
With a new broom every day
If that don't work
I'll jerk around until my next birthdayYeah, life begins at 40
Age is just a state of mind
Well, if all that's true
You know that Ive been dead for 39
