

Fox

Demira Jansen

I met a fox the other day
When I asked how much she cost, I had to pay
All of a sudden I'd brought her home
She's one hundred kilos dressed in silver chrome
She's my world, she's so rad
And she's the best ride I ever had
She's my life, she's so bad
And she's the best ride I ever had
When I imagine me and her
You know that I get a stand-up fur
I give her oil, I give her gas
And get her seat beneath my ass
And then the turtledoves drive away
She's my world, she's so rad
And she's the best ride I ever had
She's my life, she's so bad
And she's the best ride I ever had

She's secondhand, so what?
She's true, she's by my side
For all I care, she's hot
She's a real good ride
When we go out people stop
And stare with jealous minds
It's okay for me, as long as they let her be
To prevent something like a theft
I got her locked around a tree
She's my world, she's so rad
And she's the best ride I ever had
She's my life, she's so bad
And she's the best ride I ever had
And she's the best ride I ever had
And she's the best ride I ever had
