

Cold and Jaded

Adema

To all those who have been took
They better take another look
Because they're never really what they seem
Swear never to betray the only honest man
Ever to set foot upon this promised land
Before you take them by Love has faded
I thought I'd let you know
My true reaction
Cold and jaded
Don't you follow suit
Love has faded
Cold and jaded You can not pretend
That there's nothing left to defend
How can you decide
Who goes and who stays
You talked me out my vibe
So much that I can't keep track
And you forgot about what they need
And then you plant another hate seed Love has faded
I thought I'd let you know
My true reaction
Cold and jaded
Don't you follow suit
Love has faded
Cold and jaded Soon as they come, they go even faster
Must be destined for a million disasters
There she goes
There she goes again Love has faded
I thought I'd let you know
My true reaction
Cold and jaded
Don't you follow suit
Love has faded
I thought I'd let you know
My true reaction
Cold and jaded
Don't you follow suit
Love has faded
Cold and jaded Cold and jaded

Cold and jaded

Love has faded

Cold and jaded
