

# Crown (With Hidden Track "She Said")

## Collective Soul

Who's gonna be my savior  
Now that I've learned to believe  
Who's gonna be the answer  
To all of my questioning  
Well I hope I'm not lost  
But I think that hope is now distancing  
And the words that secure a thought  
Are now faint whisperings  
Who's gonna wear my crown  
I don't know I just might alone  
Who's gonna wear my crown  
I don't know I've just got to go my way  
Who's gonna be my partner  
Now that I stand here alone  
Who's gonna be the shepherd  
To lead this poor boy back home  
Well I hope I'm not lost  
But I think that hope is now distancing  
And the words that secure a thought  
Are now faint whisperings
