

# Dr. Octagon

## Dan The Automator [Dr. Octagon]

Live, November 6, 1996

At the Great Western Forum in Inglewood, CA

Dr. Octagonecologist and Chewbacca Uncircumcised

Perform with with Curt Kobane and Roger from ZappThe plane managed to land, the skeleton at the controls

A place called the Twilight Zone

Are extraterrestrials able to accomplish this?

I will explain but you'd become more puzzled at the possibilities

Earth ending trilogies, wacky stuff

Like gas passing dinosaurs while I stroll in circles blindfolded

Gave a lady some wrinkle cream out of rat poop

You might just laugh so hard your skull cracksBrain spills thick blood shooting out like a champagne cork

Females so horny and mean

Sucking scales off of live rattlesnakes

My boy gave his girl money for groceries, she got a new hairdo

Women like this could even make the devil commit suicide

Hung from a tree on Johannesburg with no parachute

Big-Bigfoot captured by UFO's

Haloos were found, at the landing sites, vanishingVanishing victims, kept alive on metal examining tables

Ex-Experts baffled they could survive the caustic exposure

To laser scalpels, green berets

Flowing cold heads in mechanical wombs

Radioactive constant temperature circular appendages

Cripples start shaking sending distress signals

We're not alone in the Twilight Zone"\"They waved among the trees at breakneck speed"

Keep it simple

"\"They waved among the trees at breakneck speed"

Keep it simpleBack in spiral, I roast humans like a gyro

New York, Atlanta, Africa to Cairo

Diplomat King Presidential offspring

Two miles from Westinghouse, with lights down South

Government chemical voodoo man miracle

Super disease your brain is more hysterical

My urine see paralyze your ability with space codes

Electrodes you're ready for a pap smearWax in your inner ear, doo-doo in your outer ear

Two cows a zebra will jump through your atmosphere

Giraffe-Funk will raise beam-in' through your trunk

Steam of Legion, to burn up in your anal region

Power contracting with bombs in his rectum factor

Utilized phonic like water in your Panasonic

Trip or slip or fall right into the earth pit, gamma ray toilet  
Microbes on your earth shitDr. Ludicrous, I turn into a octapus  
Grab eight species, isolate like an incubus  
Convert with probes, green shit is on your earlobes  
Attack what stomach with juice they call gastric  
Alien bugs with sickle cell, get they ass kicked  
Dermatologist examine more black cysts  
Radiation butter pouring down your sinus, it's Dr. Octagon"They waved among the trees at breakneck speed"  
Keep it simple  
"They waved among the trees at breakneck speed"  
Keep it simpleUtilize to abuse minds  
Slice head halves, let's probe the subconscious lobe  
Mathematical parabola, ACT test and just ex-plorating  
The creative arctic regions, or isolating cockpit  
A regular pitstop monitoring with enough fuel  
To fly a small dirigible to a place an oasis in a nebula, Earth  
Universal charting unseen atmosphere  
Requesting assistance, I speed through wavesLike a Concorde SST, then open aperture  
The shape of Octagon selects forward morphing  
It's the vertical Frankenstein  
Prototype of like Kervorkian, mind pedestrian controls  
Spend elevation gobble the ignorant supersonic cruise  
Hidin' to think, focus psychosis with Von Blowford  
Black lotus releases when life is flailing external  
Terminal update, thermal conducted power source suppliedMan on the moon pumps amps, or souped up cable  
boxes  
Getting up impossible  
The speaker needs another dose, concoct  
Concoct the scenario view, in a position of a coroner  
Describing current events bent on human dismemberment  
To a point of no resemblance  
We're not alone in the Twilight Zone"They waved among the trees at breakneck speed"  
Keep it simple  
"They waved among the trees at breakneck speed"  
Keep it simpleLike Enoch, I wear my cape, you can't destroy  
My impeccable caliber that makes your vision blur  
I drop particle X when having Rhythm sex  
Voodoo arrangers with the kids Power Rangers  
Make me see other men, gorillas masturbating  
With human strangers  
Legally through court, you're stung by a genital wart  
Chlamydia, through the city-aLos Angeles Texas has a serpent that's urgent  
For the mass appeal biomedical test your rectum  
Squeezing in banana peels  
Outwards backwards towards Boston

It's costing androids leaving humans with hemorrhoids  
Thinking more of what they can't exploreLike the cartoon Donald Duck is giving fellatio on the floor  
With Reed Richards, looking at The Thing's naked pictures  
Taking Ex-Lax to relax with the needle and thread  
Sewing up all the other buttcracks  
In the industry there's no one who can mess with  
Dr. Octagon, now serving coleslaw and pink pickles"They waved among the trees at breakneck speed"  
Keep it simple  
"They waved among the trees at breakneck speed their bikes"  
Keep it simple"Detached his bike, and leaped to safety  
Just before they collided with a tree"
