

Satellite To Satellite

Blue System

Oh baby can you tell me, is it love or just a game
I'm lying in a bed of fire, oh babe do you feel the same
It's a long long way to go, but I never let you know
Oh relax baby, love will turn out fine[Call me :]
Satellite to satellite, my sweet taboo
You're my teacher, I'll come to school
Who wants to love you forever and ever
It's written in the wind[Call me :]
Satellite to satellite, oh it's a tough world
You're my teacher, for all my love girl
You're my sweetest my sweetest desire
Take me in your arms tonight
Goodbye heartache and good vibration
It's a story for generation
Baby come hold me tonight Oh time will wait for no one, I can't make a blind girl see
I will take the train of silence, on the wings of destiny
It's an endless rhapsodie, what you give and what you feel
Oh relax baby, have some fun tonight
